## SUMMARY

With a solid 4+ years tenure in the tech industry, I am an accomplished Frontend Engineer. My track record includes successful leadership, design, development, and delivery of front-end applications, consistently achieving high quality standards.

## TECHNICAL SKILLS

JavaScript, React.js,HTML5, CSS3, SCSS, JQuery,JSON, Ajax, REST, Responsive Web Design, Cross browser compatibility, Front-End Performance, Data Structures and Algorithms, Webpack, Jest, & React Testing Library, Tailwind CSS , problem solving and complexity analysis.

## PROFESSIONAL EXPERIENCE

### Upwork(Freelance) | React Developer | Jan 2024 - Present

- Designed and developed a highly responsive and user-friendly website tailored for food ordering, ensuring seamless navigation and an intuitive user experience.
- Implemented and maintained front-end web applications, resulting in a 20% reduction in page load speeds and conversion rates by utilizing modern web technologies such as React.js and best practices for user experience and accessibility.
- Developed responsive Single Page Applications (SPAs) using JavaScript (React), HTML, and CSS, integrating with backend services through REST APIs.
- Developed and executed front-end development strategies, resulting in a 15% increase in performance by implementing optimization techniques such as code minification and troubleshooting issues using browser developer tools.
- Granted additional code review permissions after demonstrating strong attention to detail that led to a 25% decrease in code errors.
- Assisted in the development and maintenance of front-end web applications, resulting in a positive impact on the company's overall performance.

### Cognizant, Bangalore, India | Front-End Engineer | Feb 2022 - Dec 2022

- Implemented responsive design principles to ensure seamless user experience across various devices.
- Implemented on demand loading of items along with images to download as users scrolled on the search results page.
- Utilized HTML, CSS, and JavaScript to build and enhance the user interface.
- Created a Shimmer UI loading component for displaying a page initially until data is retrieved from the API.
- Developed the icon farm for popular words like bestseller, veg/non-veg to allow customers to pick at a glance instead of text heavy feature display .
- Developed inline expansion feature to allow customers to view additional item information in an expand/collapse feature as needed.
- Created a custom hook to fetch data from the API, optimizing the application and making it easily testable.
- Utilized lazy loading to distribute the different chunks.
- Conducted regular maintenance tasks such as updating dependencies and fixing security vulnerabilities to ensure app stability and security.

## **Softpro Business Solution, Bangalore, India | Front-End Engineer | Aug 2019 – Jan 2022**

- Developed and maintained front-end features for a Banking application, ensuring a seamless user experience.
- Implemented responsive design principles to optimize the app for various devices and screen sizes.
- Collaborated closely with designers and back-end developers to translate wireframes and mockups into functional code.
- Utilized HTML, CSS, and JavaScript frameworks such as React.js to build interactive user interfaces.
- Integrated third-party APIs for features like payment processing and location services.
- Conducted code reviews and participated in team meetings to discuss project progress and challenges.
- Optimized application performance and addressed bugs and issues reported by users.
- Stayed updated with industry trends and best practices in front-end development to continuously improve the app's design and functionality.

## **EDUCATION**

- **Bachelor of Engineering(Computer Science)** VTU, Belgaum, India | **Sept 2015 - Jul 2019**
- **Full Stack Web Development Bootcamp, Seattle** | **Jan 2023 - Mar - 2024**
